

3 Gallons Filling Machine

BY-XGF-450

The XGF-450 Gallon Filling System is designed by BY to provide compact solution for 3 gallons drinking water production. The machine integrates washing, filling and capping functions. It is an ideal equipment for mineral water, packaged drinking water and pure water production.

Stainless steel componentry throughout makes the device corrosion resistant and easy to clean. For the main electrical components we use high quality well-known international brand such as Mitsubishi and OMRON, and AirTAC products from Taiwan are used for the pneumatic system. The machine designed compact with small foot print with high efficiency, stability, reliable and high level of automation makes it suitable solution for plant with limited space. Only one operator needed, is 1 in all automatic filling equipment.

Main Technical Data:

- Type No.: BY-XGF-450
- Filling capacity: 450 BPH
- Barrel: 3 Gallons
- Bucket size: $\phi 225 \times 370$
- Voltage: 380~440 VAC, 50Hz
- Power: 3 KW,
- Weight: 180 Kg
- Dimensions: 2080*730*1800 mm
