

# 5 Gallons Filling Machine

## BY-XGF-600

The XGF-600 Automatic filling machine is designed by BY to provide reliable and compact solution for 3 or 5 gallons drinking water production.

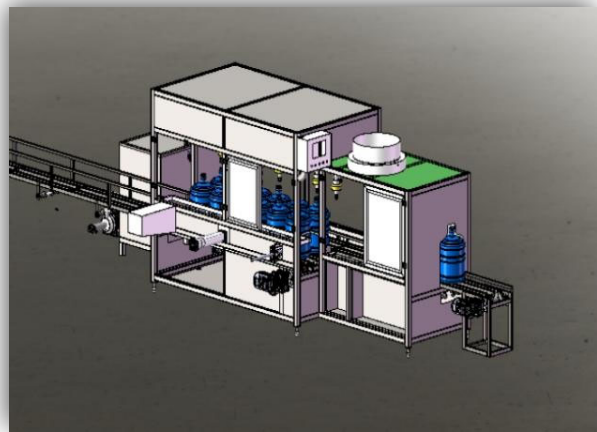

The machine integrates washing, filling and capping functions. It is an ideal equipment for mineral water, packaged drinking water and pure water production.

Stainless steel componentry throughout makes the device corrosion resistant and easy to clean.

For the main electrical components we use high quality well-known international brand such as Mitsubishi and OMRON, and AirTAC products from Taiwan are used for the pneumatic system. The machine designed compact with small foot print with high efficiency, stability, reliable and high level of automation makes it suitable solution for plant with limited space. Only one operator needed, is 1 in all automatic filling equipment.

### Main Technical Data:

- Type No.: BY-XGF-600
- Filling capacity: 600 BPH
- Barrel: 5 Gallons
- Bucket size:  $\phi 270 \times 490$
- Voltage: 380~440Vac, 50Hz
- Power: 3 KW,
- Weight: 600 Kg
- Dimensions: 3420\*1225\*1850 mm
